

Lonza

EHS Specialist

Lonza (formerly Arch Chemicals) in Charleston, Tennessee is now accepting applications for an **EHS Specialist**. Primary responsibilities include coordinating and assisting in Plant EHS initiatives to ensure plant activities are consistent with regulatory requirements, corporate EHS, site directives and SOCMA ChemStewards initiatives. The primary goal of the EHS Specialist is to improve the site EHS program, protect employees, the environment and the community.

Qualifications:

Three to five years of experience in safety/environmental compliance roles in a manufacturing, industrial or chemical environment. Bachelor of Science in Safety, Engineering, or similar technical field. Certified Safety Professional (CSP) preferred. Must have working knowledge of relevant safety, health and environmental regulations with emphasis on OSHA, DOT and EPA regulations. Experience with PSM desired. Experience with NFPA or Fire Brigade experience preferred. Requires excellent attention to detail, recordkeeping and organizational skills and mathematical/statistical analysis experience. Must have excellent oral and written communications skills, and comfortable presenting to groups as well as working with Operations employees. Necessitates strong computer skills and proficiency in MS Office applications.

Qualified candidates should apply online at www.lonza.com (Careers/Available Jobs/US Opportunities & search for the Key Word "Charleston"). Resumes must be received no later than May 3, 2016.

If offered a position, the applicant must successfully complete a background check as well as a pre-employment physical including a drug screen.
